What is *The Brockport Experience*?

The metaphor of threads reflecting the day-to-day experiences of the Brockport community – our students, faculty, staff, alumni, and visitors and broader society (local, regional, national and global communities) weave together to form *The Brockport Experience*.

What is the Experience at Brockport Today?

Today ***The Brockport Experience*** is a diffuse concept, lacking clarity and coherence.

For some, the Brockport experience is very positive, but there are those whose experience(s) at the College may be less than positive:

- service and assessment creep
- decaying infrastructure
- unmet student financial need
- micro-aggressions, workplace bullying
- workload and compensation inequity
- low levels of trust and confidence in the institution
